INCORPORATION.

We are told that many of the citizens of Whitwell are favorably disposed toward the incorporation of the town. Corporate powers, if properly applied to any place, can be made a great help to its development and its building up, and personally we prefer the corporate government to that of a county, and believe under good management a town can be run as economically as a private business. The great bugbear which is always advanced is the saloon, which inevitably follows, why we cannot understand. But if so, we think a drinking place can be better controlled in the most public place than established in obscure and sheltered places. After all, the citizens of a place, if they will, can restrain drunkenness, if they only set down that they will not tolerate it in any shape and squarely enforce proper respect. Then a lax enforcement, always encourages digression.

Incorporation is worth trying and much can be gained for the town which cannot come in any other way.

Among the callers at the White House this week was Lord Aberdeen, the Governor General of Canada, who is a guest of Sir Julian Pauncefote, the British Ambassador. Lord Aberdeen was presented to President Cleveland by Secretary Olney. The call was strictly social, as is the visit of Lord and Lady Aberdeen and their party to the United States.

Your local paper is the true exponent of your town. If its advertising columns are full of live advertising, it means that it has a good town behind it. Otherwise, not.

The bill introduced by our representative, J. J. Dykes, was tabled. It seemed to us about the most sensible bill that was introduced during the entire session.

WHY should not Whitwell be as neat and clean as possible. It is a beautiful situation and could be made an ideal place of residence.

AND now it is President McKinley. Last Thursday was a glorious day in the history of Washington.

FEE reforms are badly needed in this State. The tax-payers have their eyes open and want a change.

OUR contemporaries are politely requested to send their papers to Whitwell.

Yes, incorporation is what a majority of our citizens want. Nice side walks would be a luxury indeed, don't you think so?

THE Centennial is bound to be a great success any way. Exhibits are piling in and there is going to be a big display.

Pleasant Hill.

Oh! such fine weather. I fear it will soon be passing away.

News Man.

A Peerless Liniment.

As a pain destroyer and cure for rheumatism, Salvation Oil is the peer of all liniments. Mr. Wm. H. Brown, proprietor of Striebinger House, Cleveland, O., writes: "I suffered from rheumatism for twelve years and my last attack kept me in bed, unable to walk. I used Salvation Oil and soon was up and about. As a pain destroyer this liniment has no equal." Salvation Oil is sold everywhere for 25 cents. Try it and be convinced.

To Build a Chute.

It is currently reported that the T. C. L. will put in a chute or slide for their coal at the steep just below the mouth of Bank No. 2, sometime during the coming season. It is believed that by so doing there will be less strain on the drum and consequently less danger of accident. The Company contemplates many improvements during the summer and are now figuring on putting in new braces on the incline, that is it is so reported. These improvements added to the additional coke ovens in prospective will make considerable extra work this summer. We believe that Whitwell has more inducements for residence here than any other town in the Valley.

The Public School.

The public school re-opened Monday at nine o'clock with one hundred and fifty scholars in attendance. The teachers are the same as before, viz., Mr. E. A. Ashburn, principal, and Mr. J. H. Harris and Miss Nannie Ketner, assistant teachers, which in our estimation makes a strong corps of teachers. We wish for the school all the success that it possible and believe it will prove its worth in the training it will give the children. The actual value of a good, well-conducted school cannot be too highly estimated, and there never was a better saying, "An idle mind is the devil's workshop." Boys and girls, remember that you are now fitting yourselves for life, and that every moment which is now devoted to acquiring an education will make life easier and pleasanter for you afterwards.

The News found the faculty in solemn conclave beneath a large oak tree in the school yard at the noon hour Monday, and in answer to inquiries was told that there would be over two hundred by the end of the week, and that there was some confusion at present, but that it would all be straightened out by the end of the week.

This school takes a very comprehensive course in common branches and has special departments for those who wish them, and music is included among the various departments, the lessons being given privately.

As we said before, we wish for the school a prosperous term, and believe with such a good corps of teachers it will be a successful as the most laudious could desire.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
